

The mBox L32 Wiring Centre with 221 series compact lever connector

Gas boilers

Data Centres

Fire alarm systems

Lighting

Dimensions:

159 x 35 x 114mm (LxWxH)

Features

- 221 series allow up to 4mm², 32A / 450V.
- 221 connectors are pre-mounted and ready to use.
- Significantly reduced installation time due to lever operation.
- Cable entries from behind or bottom face by cut outs.
- Attractive finish designed to not look out of place within a domestic setting.
- Satisfies the requirements of both 'S' and 'Y' connection schematics.
- Easy mounting with 4 integral mounting holes.
- Unique design on underside aids mounting on uneven surfaces.

221 Series Compact Lever Connector

221 Series - 4mm²
